Federal Communications Commission
Office of the Secretary

In re Applications of)
CAPROCK EDUCATIONAL BROADCASTING)
FOUNDATION) BTCED-891003GG
For Transfer of Control, KAMY(FM),)
Lubbock, TX, and)
KLMN(FM), Amarillo, TX)

**CONSOLIDATED OPPOSITION TO
PETITION TO DENY AND INFORMAL OBJECTION**

Caprock Educational Broadcasting Foundation ("Caprock"), by its counsel, herewith submits its opposition to the Petition to Deny and Informal Objection to the applications for transfer of control of KAMY(FM), Lubbock, TX and KLMN, Amarillo, TX, filed by Williams Broadcast Group ("Williams"). In support whereof, the following is stated:

1. As discussed in Williams' Petition to Deny and Informal Objection, Mr. T. Kent Atkins and his wife, Mary Helen Atkins, seek to resign from the Board of Directors of Caprock. In the past, the Commission has permitted such applications to be filed on FCC Form 316. If directed to do so, Caprock will submit FCC Form 315.

2. As discussed by Williams, in its petition, it filed a Petition to Deny the Caprock construction permit application for KAMY, Lubbock, TX. In the petition, Williams alleged, among other things, that Mr. Atkins was involved in unauthorized preconstruction at a site other than that authorized in the Caprock construction permit but for which an application for modification of construction was pending. Mr. Atkins

acknowledged his mistake but stated that he had not intentionally violated the Commission's Rules. Williams countered with an allegation that Mr. Atkins had evidenced a pattern of violation of the Rules by preconstructing KLMN in Amarillo, TX. Caprock admits that Mr. Atkins violated the rule but does not agree that he did so intentionally. The fact that he violated the rule twice does not prove willfulness but merely confirms his ignorance of proper procedure.

3. Since Caprock is a foundation, dependent on the contributions of citizens, undersigned counsel advised Mr. Atkins that he may have a fiduciary duty to his supporters to tender his resignation due to the above circumstances. While Mr. Atkins states that he did not willfully violate the rules, the fact is that he did make mistakes which place in jeopardy the funds of the Caprock contributors. While this was a very difficult emotional decision for him (the call letters KAMY were derived from his daughter's name: Amy), Mr. Atkins agreed to step down from his position on advice of counsel. His wife agreed to step down with him.

4. While Caprock acknowledges the dilemma it finds itself in as a result of the serious allegations which have been made by Williams, Caprock believes that a grant of the instant applications would serve the public interest. In the first place, Mr. Atkins will not benefit from the instant transfer of control. No monetary or other consideration is being afforded him. Thus the policy of withholding transfer of control where the transferor has been accused of wrongdoing should not apply here. (The policy is not a strict legal requirement as

recognized by the Commission's "distress sale" policy). Furthermore, the public would be served since a grant of the transfer would assist in protecting the interests of contributors.

5. Denial of the transfer application would go only to serve the interests of Williams. According to Williams, at p. 2 of its petition, "KJAK and KAMY [would] compete for potential listeners in the Slaton/Lubbock area." Williams desires to keep competition out of its service area: a private interest.

6. In conclusion, a grant of the instant applications for transfer of control of Caprock would serve the public interest. To the extent that Mr. Atkins may have been involved in any wrongdoing, he is being removed from his position with Caprock, and he is receiving no compensation for his withdrawal. Furthermore, the interests of the Caprock contributors may be protected by the removal of Mr. Atkins to the extent that he may have been involved in any wrongdoing. In contrast, only the competitive interests of Williams would be served by a denial of the application.

WHEREFORE THE PREMISES CONSIDERED, it is respectfully requested that the instant transfer applications be granted.

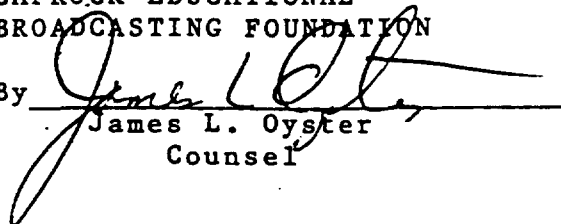

Respectfully submitted,

PETITION FOR RECONSIDERATION

Williams Broadcasting Group (Williams), licensee of Station KJAK(FM), Slaton, Texas herewith moves for reconsideration of the grant of the application of Caprock Educational Broadcasting Foundation (Caprock), File No. BMPED-890726IF, granting a minor modification of construction permit (File Nos. 831229AD, BPED-840626IE and BMPED-900724JK) for Station KAMY(FM), Lubbock, Texas. Caprock is the subject of a lengthy Petition To Deny in File No. BMPED-880328MM for, among other things, premature construction. It is also the subject of a Complaint filed by Williams on May 25, 1989. Both the Petition To Deny and the Complaint are incorporated herein by reference. The above captioned application (File No. BMPED-890726IF) was used as a substitute for the application as to which Williams had filed against -- and

Williams was not served. See Exhibit No. 1. Unconscionable! Accordingly, the allegations in Williams' original Petition should be considered in connection with the later application.

As Williams understands it, Caprock and its sister organization, Southwest Educational Media Foundation of Texas, Inc. and the various stations for which they hold licenses and/or permits are the subject of a sixty-five page Report compiled on their various sins by the Commission's field representatives under the aegis of Complaints and Enforcement. Because of the premature construction and various other rules violations, Caprock is not qualified to hold a construction permit. Accordingly, no modification thereof should give it any hint of legitimacy. Accordingly, the grant of the modification should be reconsidered and the application should be denied.

RESPECTFULLY SUBMITTED:

John H. Midlen, Jr.
Gregory H. Guillot

Washington, D.C. 20554

July 21, 1989

Dear Secretary,

Transmitted herewith is our application for a **Minor Modification** to our construction permit for KAMY-FM (BPED-831220AD), to operate on the assigned frequency of channel 211 in Lubbock, Texas. It has been determined that our previous application for modification of construction permit (BMPED-880328M), was inadvertently a major modification, and as such was made in error. Corrections have been made to this request for modification of construction permit and all is in order at this time. This minor modification of construction permit is to supercede any previous modifications to the construction permit (BPED-831220AD). Please dismiss all previous request for modification immediately.

Further, it should be noted that according to question 11, of section V-B of form 340, this proposed modification of tower site only changes the proposed area of coverage 47.4%. This is less than the 50% change constituting a major change.

If there are any further questions with regard to this minor modification please feel free to contact me at (817) 498-7001, or Mr. James L. Oyster at the following at (703) 937-4800.

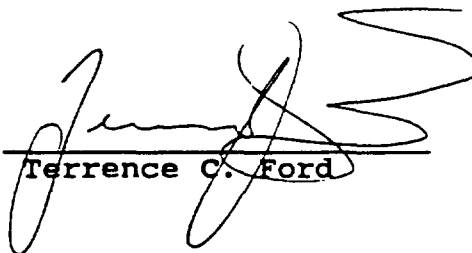

Sincerely,

T. Kent Atkins

CERTIFICATE OF SERVICE

I, Terrence C. Ford, do hereby certify that I have caused to be sent via First Class U.S. Mail, postage prepaid, today, September 24, 1990, a copy of the foregoing PETITION FOR RECONSIDERATION to the following:

FEDERAL COMMUNICATIONS COMMISSION
Washington, D.C. 20554

DUPLICATE

DEC 18 1989

In re Applications of)
Chase Communications, Inc.)
Waco, TX, et. al.) Docket No. 89-338
For Construction Permit)
New FM Station)
Waco, TX)

TO: Hon. Joseph Chachkin
Administrative Law Judge

MOTION TO ENLARGE THE ISSUES AGAINST SOUTHWEST
EDUCATIONAL MEDIA FOUNDATION OF TEXAS, INC.

Chase Communications, Inc. respectfully submits this
Motion to Enlarge the Issues Against Southwest Educational
Media Foundation of Texas, Inc. ("SEMFOT") to include the
following:

- (1) To determine whether SEMFOT is financially qualified
to construct and initially operate its proposed
station; and
- (2) In view of the foregoing, whether SEMFOT has the
requisite basic qualifications to be a licensee.
- (3) To determine whether SEMFOT misrepresented the facts
or lacked candor with the Commission in certifying to
its financial qualifications and, if so, the effect
thereof on its qualifications to be a licensee.

Timeliness

1. This Motion is timely, having been filed within 15
days of the receipt from SEMFOT of a listing of pending low
power TV applications which are owned by one of SEMFOT's

principals.^{1/} See 47 C.F.R. §1.229(b)^{2/} In any event, the Motion raises a question of probable decisional significance and such substantial public interest importance that it should be considered regardless of its timeliness. See 47 C.F.R. §1.229(c).

Discussion

2. Applicant is a non-stock, non-profit corporation whose three-member board of directors is controlled by Mary Helen Atkins and her spouse, T. Kent Atkins. See Exhibit B hereto. In its application for a new FM facility at Waco, Texas, SEMFOT disclosed inter alia that Mary Helen Atkins has "numerous L.P.T.V. applications pending." Id. The application also disclosed that, as of June 1987, SEMFOT also had pending at the FCC both a commercial FM application for Odessa, TX and also a non-commercial FM application for Albuquerque, N.M. Id.

3. In its Integration/Diversification Statement, dated September 8, 1989, SEMFOT revealed inter alia that: (1) Mary Helen Atkins has "various L.P.T.V. applications which are pending," (2) Mr. Atkins holds a construction permit for KTHP(TV), Longview, TX, and that (3) SEMFOT has five FM

^{1/} The list of media interests should have been filed by September 11, 1989, when SEMFOT was required to file its Integration/Diversification Statement. See Order, FCC 89M-2069 (Judge Chachkin), released August 14, 1989.

^{2/} The list was provided as an attachment to a letter to counsel, dated November 30, 1989. See Exhibit A hereto.

applications now pending before the FCC (including the instant Waco application).^{3/}

4. In its belated diversification disclosure, SEMFOT reveals that Mrs. Mary Helen Atkins has no fewer than fifteen (15) LPTV applications pending before the FCC.^{4/} See Exhibit A.

5. In sum, Mr. and Mrs. Atkins -- who control SEMFOT -- presently hold construction permits for at least three unbuilt TV stations and they jointly control at least twenty (20) pending applications before the FCC.^{5/}

6. The simultaneous pendency before the FCC of a "considerable" number of applications by the same entity requires the specification of a financial issue. See George Edward Gunter, 60 RR2d 1662, 1664-65 & note (Rev. Bd. 1986). As Judge Chachkin held in a recent case where an entity with 15 pending applications had been required to prove its financial qualifications:

It is well established that, where an applicant files multiple applications, the applicant must be able to

^{3/} It appears that SEMFOT's application for Odessa, TX was dismissed between the date that SEMFOT's 1987 application was filed and the filing of its Integration/Diversification Statement in September 1989.

^{4/} Mrs. Atkins also holds CP's for two unbuilt LPTV stations. See Exhibit A.

^{5/} Mr. Kent Atkins, Mrs. Mary Helen Atkins, and "Athol Atkins" are also members of a six-person board of directors of "Southwest Educational Media Foundation, Inc.", a Louisiana Corporation, [See Exhibit B] which has a CP for a new FM station at Lake Charles, LA. See Exhibit C.

demonstrate that it is financially qualified as to all pending applications.

American Indian Broadcast Group, Inc., FCC 89D-51 (ALJ Chachkin), released November 14, 1989, at ¶18, emphasis added.

7. Financial and financial misrepresentation issues should be added against SEMFOT. The husband-and-wife couple which controls the applicant have at least twenty (20) applications presently pending before the FCC. Additionally, they hold permits for at least three unbuilt stations. In these circumstances, "presumption" of financial qualifications does not attach; the applicant should be required to prove its financial qualifications. See American Indian Broadcast Group, Inc., supra.

CONCLUSION

The requested issues should be ADDED.

Respectfully submitted,

INTEGRATION AND DIVERSIFICATION STATEMENT

Southwest Educational Media Foundation, Inc., by its counsel, herewith submits its integration and diversification statement in the above-captioned proceeding. In support whereof, the following is stated.

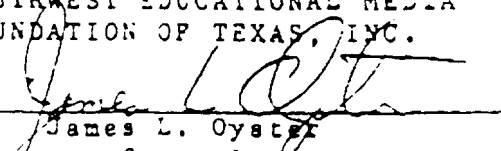

1. The applicant is Southwest Educational Media Foundation, Inc. ("Semoft"), a Texas non-profit tax-exempt corporation. Semoft currently operates several other non-commercial educational stations as listed in the attached Exhibit, setting forth the applicant's other media interests.

2. Semoft will hire a manager to oversee the operation of the proposed station. The manager will report to T. Kent Atkins, president of Semoft. Mr. Atkins will be responsible for final decisions regarding the station. However, no cognizable integration credit is proposed.
